Policies for Gender Sensitization

Govt. Girls College Vidisha, established the Women Harassment Cell, for redressing the complaints and other relevant committee and department works for the welfare and empowerment of girls in college and finally leads to the development of society. The Policy of Gender sensitization in our institute is to modify the behavior of students by raising awareness of gender equality and its concerns. It is very important to sensitize the younger generation so that they are more aware and sensitive towards the women empowerment issue to contribute the development of the society.

Following policies are undertaken by the institute for gender sensitization

1. Skill Empowerment

- a. **Vivekananda Career council** cell will provide proper counseling, guidance from experts and various skill development educations to students of our college.
- b. Developing and promoting leadership skills of female students and female faculties.
- c. Developing innovative ideas, thoughts and practices to start changing the mindset of younger generation to bring about future change in our society.

2. Legal empowerment

- a. **Women Harassment cell** will aware the students on Legal issues relevant to the girls which is always a sensitive matter for safety and security of them.
- b. The teaching staff once in a month will aware the girls on regular basis in their classes for their rights.
- b. Provide good and healthy environment for women staff and female students by disallowing any type of harassment or exploitation.

3. Health empowerment-

- a. **The department of Home Science** is running specialized course in Food and Nutrition, so, the department will organize the check-up camp of nutritional status of students and the staff.
- b. The department will organize awareness camps each year on the occasion of national nutrition week, breast feeding week International women's day etc.
